

Kelli's Story

"It was my first time being pregnant, and I was so in shock. My family didn't approve. The father of the baby wanted me to have an abortion. I had no place to stay and hardly anything to eat. It really hurt – I didn't have anyone. I thought nobody cared.

"My Life Centers peer counselor prayed with me and calmed me down. I didn't feel like I was being judged. It was the first positive thing and person in my life.

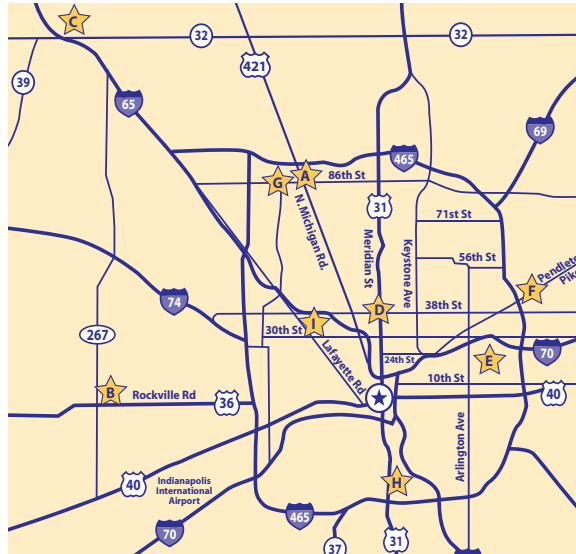

"She told me about all of my options beside abortion. We went into the ultrasound room and I saw it. I knew then that I couldn't have an abortion. [Life Centers] really changed my decision. It really changed me.

"I had never read the Bible, but Life Centers gave me a Bible I could understand. In October I got saved and was baptized. I used to smoke, drink, all that stuff. I wanted to change, and my heart was ready. I have supportive people all around me now.

"This baby is a blessing. Life Centers supporters put on a baby shower for me. If it wasn't for them, we wouldn't have nothing. I really appreciate Life Centers."

Our mission at Life Centers is simple...to **save babies** and **transform lives.**

because *life* matters

truth about abortion

Nearly **half of all pregnancies** in America are **unintended.**

1 in 5 pregnancies ends in abortion.

Over **10,000 abortions** occur in Indiana **each year**

In America, 1 baby is aborted **every 24 seconds.**

Over 45 million abortions have occurred since *Roe v. Wade* in 1973. **73%** say they **cannot afford** to have a child.

Ashley's Story

"I was extremely overwhelmed. I thought I might be pregnant with twins. I already had two kids and am a single parent, so abortion had crossed my mind. When I talked with my peer counselor at Life Centers, I told her it was not a planned pregnancy.

"Then I had an ultrasound and saw there were two babies that were six weeks and six days old. Once I heard the heartbeats, it was a done deal. The first opportunity I had after my twins were born, I took them back to Life Centers to show everyone there."
